Lastly, the poster includes our team's **reflections**. This comprises the motivation, insights and information gained from this industrial talk.

INTRODUCTION

Clarity Techworks is a **Fintech company** based in Singapore and Malaysia. The company developed **Rapidz Pay**, a cryptocurrency payment and digital assets ecosystem. The company's second official product, **Rapidz Merchant Portal**, is also due to go live soon.

Some of their employees include **Mohamad Noor Ridwan, Syarifah Adilatul Hulwani, Liyana Amri, Saiful Habib Danial and Izzah Fatini**. Together, they drive innovation in financial technology and position the company for continued success.

CONTENT OF THE TALK

MOHAMAD NOOR RIDWAN
JUNIOR ANDROID DEVELOPER

The developer's job scope focuses on implementing new features, improving project codes and publishing applications on the Google Play Store.

The developer utilizes Android Studio, Google Play Console and Firebase Console.

His skill set encompasses analysis, communication and creativity.

SYARIFAH ADILATUL HULWANI
JUNIOR UI/UX DESIGNER

The designer is responsible for UI/UX research, information architecture, wireframing & prototyping and testing & iteration.

The designer utilizes tools like Figma, Slack and Phrase.

Her skills include creative thinking, problem-solving and communication.

LIYANA AMRI
JUNIOR QA TESTING ANALYST

The analyst's role involves ensuring software/products meet quality standards and testing & identifying any issues in the software/product.

Tools like Confluence and Jira were utilized to ensure the quality of the software/product.

Her skills include analysis, documentation and time management.

SAIFUL HABIB DANIAL
JUNIOR WEB/API DEVELOPER

The developer specializes in producing APIs for internal & external use, troubleshooting & providing solutions to backend problems and managing the company's web applications.

To do so, the developer utilizes tools like Postman, Bitbucket and Jira.

His skills include critical thinking, continuous learning and attention to detail.

IZZAH FATINI
JUNIOR WEB/API DEVELOPER

The developer develops and enhances web applications, integrates UI design based on server logic and maintains system documentation.

The developer utilizes Visual Studio Code, Sequel Ace, and Sourcetree.

Her skills revolve around programming languages, frameworks & libraries and version control.

REFLECTION

From this industrial talk, our team has gained a lot of information, insights and motivation.

The Clarity Techworks employees discussed the **differences between student life and professional life**. For example, in aspects such as commitment, independence and learning versus applying knowledge. Our team has gained more perspective, which will allow us to efficiently adapt to the expectations and demands of the workplace, fostering a smoother transition between periods.

The Clarity Techworks employees also offered **valuable advice, insights and motivation**. For example, to actively develop and publish software on GitHub. This helps to build a dynamic portfolio and foster community engagement. With such advice, our team will put in more effort and strive to become appealing candidates to potential employers.
